BARRACKS FLAT RESERVE – RECENT PLANTING HISTORY

2014 PLANTING

FACEBOOK POST - MARCH 26, 2015

As part of Council's Trees for Cars program staff have today planted 480 native trees and shrubs in Barracks Flat Park. The plantings will offset the emissions of Council's entire fleet (cars, lawn mowers, trucks etc) for 2014-15. Last year we planted 480 trees and shrubs in the Same park and it will continue next year. All of this planting goes towards Council's goal to reduce its emissions by 25% by 2020.

FACEBOOK POST - 2016

Council staff today planted around 500 trees and shrubs near Barracks Flat Creek. This is an annual activity in line with our Trees4Cars program to offset the carbon emissions from Council's fleet vehicles.

This is the third year of planting best Barracks Flat Creek. Today we planted a range of eucalyptus, acacias, sheoaks, lomandras, and Hardenbergia.

SUMMARY FROM INVOICES -
Planted at Barracks Flat 2014, 2015 & 2016

2014	2015	2016
<i>Acacia dealbata</i>	<i>Acacia mearnsii</i>	<i>Acacia Mearnsii</i>
<i>Acacia mearnsii</i>	<i>Acacia rubida</i>	<i>Acacia Rubida</i>
<i>Acacia rubida</i>	<i>Eucalyptus rossii</i>	<i>Casuarina Cunninghamiana</i>
